[Vampire Survivors](#) transports you into a zombie world from above with massive waves of zombies on a pixelated arcade-style background. An army of vampires appears massively to attack you non-stop. They are numerous, but the players possess a character with special powers. This arena has only you alone to fire on waves of powerful zombies. Fight hordes of enemies, slay monsters and zombies, and finish the roguelike RPG as a lone survivor! There was almost nowhere left to go, to evacuate or escape. Those who are still alive can only force themselves into warriors, pick up their guns and fight madly with the whirlwind of dark zombies everywhere and open the way to find their own way of life.
