#### Description

Hollywood movies are endless in creating great movies for all genres, including adventure movies. 'BEAST' is an adventure movie written by Ryan Engle and Jaime Primak Sullivan.

The film, which was released on August 19, 2022 in the United States, is the work of director Baltasar Kormákur and produced by Universal Pictures. All the actors and crew did the totality of shooting the movie 'BEAST'. Instead of using a green screen, they went to South Africa, the rural provinces of Limpopo, Northern Cape, and Cape Town to get real pictures and forest atmosphere.

The shooting process was carried out for approximately 10 weeks. Not only does it offer an interesting plot, this movie will also provide a suspenseful effect when watching it. Curious? Check out the synopsis!

#### 1. 'BEAST' Movie Synopsis Anti-Spoiler!

'BEAST' tells the story of a father and doctor named Dr. Nate Samuels (played by Idris Elba) who takes his two daughters to South Africa to experience the country's nature reserve.

Unfortunately, the trip does not go smoothly, as they face one problem after another. They encounter a huge lion that is savage and thirsty for blood, the lion can stab Dr. Nate Samuels and his two children whenever the lion wants.

Dr. Nate Samuels as a father who wants to be responsible for protecting his daughters, is always faced with a battle between life and death. Not without reason, the 'King of the Jungle' in the movie had a motive in stabbing Dr. Nate Samuels and his daughters. The lion wanted to prove that Savanna only has one powerful predator.

#### 2. The Cast Comes from Different Countries

In addition to the interesting storyline filled with tension discussed earlier, the cast, which is one of the important factors in the success of the movie 'BEAST', also needs to be highlighted. This movie attracts famous actors and actresses from various countries.
