

## Study manager - Feature #540

### delete user button within institution detail page

12.12.2017 15:25 - Miroslav Blaško

<b>Status:</b>	Closed	<b>Start date:</b>	12.12.2017
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Tomáš Klíma	<b>% Done:</b>	100%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Spent time:</b>	1.00 hour
<b>Description</b>			

#### History

##### #1 - 12.12.2017 15:41 - Miroslav Blaško

- Assignee set to Tomáš Klíma

##### #2 - 20.12.2017 11:35 - Miroslav Blaško

- It should remove user from database not only remove it from the institution.  
- Whenever user has some patient records, it should not be possible to delete it.

##### #3 - 25.12.2017 21:54 - Tomáš Klíma

- % Done changed from 0 to 60  
- Status changed from New to In Progress

It looks like there can be only one patient record on whole study

Logger.js:19 POST /study-manager/rest/records - Status 500: Individual <http://vfn.cz/ontologies/fss-form/fertility-saving-study-q> of type <http://onto.fel.cvut.cz/ontologies/documentation/question> already exists in storage.

##### #4 - 24.03.2018 22:17 - Tomáš Klíma

- Status changed from In Progress to Resolved

I also made that institution cannot be deleted with members or patient records

##### #5 - 24.03.2018 22:17 - Tomáš Klíma

- % Done changed from 60 to 100

##### #6 - 27.03.2018 12:00 - Miroslav Blaško

- Status changed from Resolved to Closed

##### #7 - 20.12.2023 04:51 - Anonymous

You've come this far and I think that's great, keep chasing your dreams and one day you'll reach the top and then you'll see how great you've become . <https://buildnowgg.io>

##### #8 - 20.12.2023 07:39 - Anonymous

Assuming you have a list of users on your institution detail page, [\[\[https://geometrydash3d.io/geometry dash\]\]](https://geometrydash3d.io/geometry) each user can have a "Delete" button associated with them. Here's a basic HTML structure

##### #9 - 20.12.2023 07:43 - Anonymous

Implement a backend endpoint or [Geometry Dash](#) function that handles the deletion of a user. This could involve updating a database or any other data storage mechanism.

##### #10 - 20.12.2023 07:44 - Anonymous

Integrate the "delete user" functionality into the frontend. This includes adding [geometry\\_dash](#) the button to the user interface and connecting it to the backend functionality.

Those who fail to do their duty because of a quordle lack of willpower, which is to say <https://snaptiktake.com/> because they fear the toil and misery that is inevitably in store for them, deserve just as much blame.

**#12 - 08.01.2024 09:20 - Anonymous**

Typically, [buckshot roulette](#) administrative actions like deleting users require appropriate permissions and are managed within the user management or administration section of the platform.
