Description

It seems it is possible to save/remove a record without being logged in. This was done using test user which was logged into by "impersonate". Then in 2 separate tabs patient records were accessed, while tabs were used to both logout and save/delete a record.

History log:

You can play basketball games in the game https://basketrandom-unblocked.com/, which are frequently quite random but also very funny! Try to manipulate your two players like inflexible, uncontrollable sticks with the goal of making baskets, defending against opponents, or stealing the ball. The field, the players, and the ball's mechanics will change after each basket.
